

Carlos Cordova, Senior Software Engineer

Lima, Peru | Remote | Open to International Relocation

carlosab1802@gmail.com | LinkedIn: linkedin.com/in/carlosabcs | Github: github.com/carlosabcs

ABOUT ME

Senior Software Engineer with 8+ years of experience building and evolving web applications, internal platforms, and software systems across healthcare, technology, and digital products. Strong expertise in TypeScript, JavaScript, React, and Svelte, with hands-on experience across frontend architecture, backend development, APIs, technical design, testing, and cloud-based environments. Experienced in navigating complex and unfamiliar systems, taking ownership of technical problems from investigation through implementation, and collaborating across distributed engineering teams. GSoC mentor and open-source contributor with a strong interest in software architecture, system design, and technical leadership.

SKILLS SUMMARY

LANGUAGES: JavaScript, TypeScript, Python, PHP, SQL

FRONT-END: React, Redux, Vue.js, Svelte, SvelteKit, HTML5, CSS3, Tailwind CSS

BACK-END & APIS: Node.js, Express.js, GraphQL, REST APIs, Google Apps Script

DATABASES: PostgreSQL, MySQL, MongoDB, Firebase

CLOUD & DEVOPS: GCP, Docker, GitHub Actions, CI/CD

TESTING: Vitest, Jest, PHPUnit, Selenium, TDD

ENGINEERING: Frontend Architecture, Software Design, Technical Documentation, Code Review, Agile/Scrum, Mentoring

EXPERIENCE

Senior Software Engineer - [Verily Life Sciences](#)

Globant | Apr 2026 – Present | Remote

- Rapidly adapted to a complex **healthcare technology ecosystem** spanning internal platforms, studies, workflows, content, consent management, and clinical data-related systems.
- Contributed across multiple initiatives, including technical spikes in **Orion** and improvements to the *assign-roles* tooling that enhanced logging and troubleshooting capabilities.
- Joined the **Lifelong** team and developed working knowledge across Builder, Workbench, studies, workflows, content resources, and consent-related processes, while creating technical docs and playbooks to capture operational knowledge.
- Currently contributing to the **Bausch + Lomb Dry Eye Disease (DED) Study**, configuring and integrating a bundle containing **10+ workflows and 20+ content resources** across development and testing environments, with production deployment planned for October 2026.
- Integrated **AI-assisted development** into daily engineering workflows using **Claude** for code exploration, investigation, testing, script execution, and knowledge navigation, including creating reusable skills to automate tasks.

Web UI Developer, Senior - [Qiddiya](#)

Globant | May 2024 – Apr 2026 | Remote

- **Owned the frontend integration of HyperPay end-to-end**, from technical investigation and proof of concept through production, implementing a highly customized payment form, validation logic, loading states, error handling, and checkout payment states now used for ticket purchases across **Aquarabia and Six Flags**.
- Built the complete **VIP Pass and Experiences purchase flows**, including experience selection, ticket types, participant quantities, extras/add-ons, cart, confirmation, payment, checkout, and state persistence through *localStorage*.
- Developed and optimized key product features using **SvelteKit and TypeScript**, maintaining accessibility scores of **95+** across critical user flows.
- Built **40+ reusable WCAG 2.1 AA-compliant components** from Figma designs and integrated FE features with **GraphQL APIs**.
- Implemented internationalized product workflows supporting **English/Arabic, multiple currencies, and Hijri/Gregorian calendars**, collaborating across teams including Product, Design, FE, BE, BFF, Payments, and QA.

Full Stack Software Engineer - [Google](#) PSO Dev Center
Globant | Feb 2022 – Apr 2024 | Remote

- Improved **PSO Launchpad provisioning scalability by 4x**, reducing the time required to configure new Launchpads from **1 day to 2 hours** through frontend architecture and workflow improvements using React and TypeScript.
- Implemented opportunity recommendation and resource estimation modules using **Express.js**, supporting product adoption and internal decision-making.
- Developed an on-demand synchronization feature for real-time data retrieval, reducing manual updates by **50%**.
- Led product demos for **50+ Google engagement managers**, gathering feedback that informed UI/UX improvements.

Full Stack Software Engineer - [omegaUp](#)
Jun 2019 – Jan 2022 | Remote

- Designed and maintained **Badge and Notification Systems** using Vue.js, TypeScript, Python, and PHP for a platform serving **200,000+ yearly active users**.
- Built automated recognition features including **Coder of the Month** and **School of the Month**, supporting community engagement.
- Authored and reviewed technical design documents and collaborated with cross-functional contributors to scope **5 major product enhancements**.
- Mentored **3 interns** through the CodeLabs 2020 program, supporting their technical development and project contributions.

Full Stack Software Engineer - Tera Soluciones Digitales
Aug 2018 – May 2019 | Peru

- Built **Urbano**, a real-time transit tracking system using Node.js, and MongoDB, supporting **100+ concurrent users**.
- Developed a warehouse management application (**Sysfarma**) using Vue.js and Laravel for a network of pharmacies.
- Led requirements-gathering workshops and collaborated directly with clients to define and deliver software solutions on schedule and within budget.

OPEN SOURCE & TECHNICAL LEADERSHIP

Google Summer of Code Mentor - omegaUp

- (2022) **Plagiarism Detector** — passed midterm; did not pass final evaluation.
- (2023) **Optimize omegaUp.com for Mobile and Accounts for Children** — passed final evaluation.
- (2024) **Migrate Problem Creator to Vue.js + TypeScript** — passed final evaluation.
- (2026) **Query Optimization and Performance Benchmarking** — passed final evaluation.

EDUCATION

M.S. in Computer Science — Federal University of Rio Grande do Sul (UFRGS), Porto Alegre, Brazil
Graduated May 2022

B.S. in Computer Science — National University of Trujillo (UNT), Trujillo, Peru
Graduated Dec 2018 | **Best Student, Class of 2018**

RECOGNITION

- **GSoC Mentorship Recognition** — Google Summer of Code, omegaUp
- **Best Student Paper Runner-Up** — IEEE/WIC/ACM WI-IAT 2021
- **Best Paper Award** — KDMiLe Symposium 2020

PUBLICATIONS

Selected publications in NLP, misinformation analysis, and social media.
